## MAY PRODUCT & TRAINING NOTIFICATION

**H&S**  
AUTO SHOT

### Uni-Stud Flexpert Welding Studs

part#: UNI-1101

- 2.2 mm for high strength lightweight alloy steel sheet metal damage
- Complements the most popular "1001" stud sold on market
- New tip design provides instant weld puddle and easy weld flow
- Less trigger time with the stud welder resulting in less heat transfer
- Special 5 process alloy steel for super flexibility
- 500lb. fusion strength with 1500 lb. tensile strength
- Designed for all Uni-Spotter stud welders

The best of both worlds: DPS3105 primer surfacer combines cycle time efficiency with high-quality results. This quick-drying, versatile urethane surfacer delivers high build, fast dry-to-sand times and excellent resistance to film shrinkage. It's the ideal surfacer for production-minded collision centers performing premium-quality refinish work.
