DECEMBER PRODUCT NOTIFICATION

RUST TRAP

Item: SEM 45501 (Gal. Black)

A high gloss, moisture cured, urethane coating for restoring and protecting rusty metal.

- Paint direct to rust or bare sanded steel
- Seals current rust and prevents new rust formation
- Dries to a glossy, non-porous, rock hard surface
- Excellent durability and chemical resistance
- Will not chip, crack or peel
- Fast coverage
- Topcoat for UV resistance
- Apply by brush or spray gun

Unigrit Sand & Clean

Item # M31772 (72oz) M31716 (16oz)

Product number: M31772 | SKU: 070382011468

Meguiar's Unigrit Sand & Clean is scientifically designed to deliver a consistent, uniform, sand scratch while leaving behind a quality matte finish optimized for paint adhesion. This unique formulated paste provides long lasting sanding & cleaning. Removes easily with water!

SUA1080 UV Primer & SU1081 UV Primer Post Wipe

Item # SUA1080 & SU1081

SUA1080 employs the latest aerosol primer technology to combine high build with an industry-leading cure speed, by UV lamp, of only two minutes. The primer is ideal for spot repairs and improved cycle time. Once SUA1080 UV Primer has cured, a wipe down with SU1081 UV Primer Post Wipe quickly prepares the surface for sanding.

SUA1080 is suitable for a range of substrates including properly prepared steel, aluminum, galvanized steel, polyester body fillers, fiber glass and rigid and semi-rigid plastic (except polyethylene and polystyrene).

RAGE ULTRA 40

Item # FE144

- Extended work times—up to 40 minutes. Technicians can mix and spread large quantities knowing they have enough time to work large surface areas, saving time and increasing productivity
- Has the Rage Ultra industry-leading sanding properties including fast and easy standing with 80 grit sand paper
- Rage Ultra 40 can also be mixed with Rage Ultra body filler for the ultimate flexibility in work time in most any temperature while maintaining the proper mix ratio
